

# Kiribati Blind Fabrics

“Capturing the island lifestyle”

Macau

Molokai

Inspired by the culture and lifestyle of the Pacific Islands, Kiribati creates a relaxed, yet contemporary feel for any room in your home or office. The textured and stylish appearance is ideally suited to a casual or sophisticated lifestyle, whether on the coast, in the city or in the country.

Kiribati has the appeal of an all-natural Blind Fabric, but is actually manufactured using a stable and durable blend of 76% Polyester / 24% Cotton.

The result: A beautiful, Natural looking Blind that is durable, easy handling, extremely stable and so easy to look after.

Kiribati is available in two versions – Translucent and Privacy Coated.

The Translucent version of Kiribati offers privacy, yet allows ample natural light into the home or office, for a comfortable living environment. The Privacy Coated version offers a higher level of light control and is well suited to areas such as Boardrooms, Bedrooms, Studies and living areas where more light and heat control are essential.

Kiribati provides an excellent variety of Window Covering options and can be utilised in many Blind applications including Roller Blinds, Roman Blinds and Panel Glide Blinds.

The extra wide width of 280cm makes it one of the widest Blind Fabrics on the market today. This extra width of Kiribati creates greater flexibility in end use, as the windows in our homes and offices are getting bigger.

Ultraviolet light, produced by the sun's harmful rays, can drastically reduce the life of your carpets, furniture and furnishings. The Kiribati Collection has been tested by the Australian Radiation Protection and Nuclear Safety Authority (ARPANSA) and carries the maximum 50+ UPF label, offering 97.5% or more protection against harmful Ultraviolet light.

Kiribati can therefore be used with confidence, knowing that it meets these stringent Government guidelines for Ultraviolet Protection.

CREATING THE
